Our Vision

DG Engineering Works is a India-based Manufacturing and Supplier company with experience of 40+ years in Continuous Casting Machines.

Understanding the specified requirements of our clients enables us to bring about the best engineering solutions, ensuring customer satisfaction and cost-effectiveness. The dedicated teamwork and excellence of our employees have enabled us to enjoy rapid growth in this highly competitive field.

We DG Engineering Works believe that all injuries, incidents & health hazards can be prevented. For us the essential is to line management responsibility and it will endeavor to fulfill its role to the best of its activity.

- Gnanadurai Nadar (Founder & Chairman)

Our Mission

Our mission is to build on our reputation for integrity, excellence, experience and leadership as one of the nation's finest Machining organizations. We strive to create a safe and secure, yet challenging environment for our people without compromising on work ethics, thereby encouraging personal and professional growth. Our aim is to accommodate all our clients' needs and requirements and provide them with bespoke services that exceed their expectations.

As a growing Manufacture and Supplier Contractor, our mission is to continue to deliver the topnotch engineering services coupled with implementing tailored solutions for achieving customer satisfaction delivered through safe technical competence and professional integrity.

Experience

40+ years! "We always want to create something new out of nothing, and without research, and without long hard hours of effort. But there is no such things as a quantum leap. There is only dogged persistence—and in the end you make it look like a quantum leap."
